Judge Pattangall has been an outstanding figure in the democracy of Maine and both he and his wife have had many followers.

#### Concede Hale's Victory.

Election of Senator Hale, whatever the facts of the remainder of the ticket, is regarded a foregone conclu sion. His opponent is Herbert E. Holmes, who has served in both branches of the legislature. The Republican candidate for governor is W. Tudor Gardiner, an exceptionally able and popular young man whose family has been prominent in the affairs of the state for generations.

The Democratic candidate for gover nor, Edward C. Moran Jr., is striving to make water power the main issue of the state campaign. Maine has great water power resources. For years it has been a policy not to export hydroelectric power from the state, on the theory that it will attract new industrial plants and provide SIMPLE ANNALS cheaper power and light to the citizens of the state.

The Fernald law, named after the late Senator Fernald of Maine, prohibits the export of hydroelectric power. Many Republican governors in the past have adhered to this theory. But now, it appears, the Republicar powers are coming around to the idea that Maine might well benefit by the export of its surplus. Mr. Gardiner

### A New Way to Improve YOUR ENGLISH

The Triple-Impression Method "See It - Hear It - Say It"

Now you can acquire a more fluent, forceful command of language quickly and enjoyably, and avoid the drudgery of the old-style, cut-and-dried methods, through our new—

Illustrated - Lecture Course -an inspiring, resultful training for the development of Correct, Effective Expression, comprising Vocabu-

lary Building, Grammatical Correctness, Pronunciation. Speech Fluency, Art of Conversation, and related subjects. "Intellectual Recreation"

No books to buy; no lessons to study; no rules to memorize. By a unique method of instruction, which combines illustrative stereopticon slides and intensive oral drills with the instructor's lecture, the essential points are indelibly impressed upon your mind. Your vocabulary is enlarged by SEEING, HEARING, PRONOUNCING, and ACTU-ALLY USING hundreds of new words in practical sentences. Likewise your mistakes in grammar and pronunciation are corrected and your general expression facilitated.

Two Classes Begin Tonight, September 10 -in personal charge of William R. Bowlin, Ph. B. former conductor of the "English Speechcraft" column of the Chicago Daily News, and author of "Vocational English"and "A Laboratory Manual of English"-well known for his entertaining, yet authentic, presentation.

These classes will meet in the Auditorium of the new Medical Arts Building, 185 N. Wabash Ave., on Monday evenings—one from 6:15 to 7:30, and the other from 8:00 to 9:15, beginning September 10. Length of course, 15 weeks. Total cost, \$17.50—cash or convenient payments.

If you seriously seek a pleasant, practical way to improve your English, and one requiring the minimum expenditure of energy, time, and office, or come direct to the Medical Arts Auditorium, 185 North Wabash Avenue, at 6:15 or 8:00 this evening.

Even space, according to Sir Oliver, is "full of the animation of life and matter." He then turned his thought is that subject to which he has deveted his later years and which has, is his strong belief, consoled him for the tragic death of his son.

"Real existence is a much wider thing than terrestrial existence," he said. "We are mistaken in believing that life can exist only for material bodies. It can exist, perhaps better, with immaterial things. Our senses tell us only about matter and that is why matter only has loomed so large in our minds. Life can exist in the interspaces as well as on the planets.

Theodore Lacey heard it. Mr. Lacey, employed by the American District Telegraph Burglary Alarm corporation, was on guard inside the bank. He dashed to the telephone.

"Burglars are here," he informed his downtown office. "I guess they have dug a tunnel into the building. There's been some shooting."

Police squads and private detectives went to the scene. In the basement they found Theodore Marcheff, night porter of the bank building, with a bullet wound in his side.

"Which way did the burglars go?" he was asked.

"No burglars," he said. "Alex Dennis shot me—the engineer."

way . . . and, of course, you have Mr. White's personal supervision.

Muscle Sense is not a wearying or

tiring system. It is a properly balanced

food, that builds strength, endurance

tissues and new blood. Muscle Sense

loosens up all the muscles and strength-

ens all the organs in a woman's body,

giving the body good circulation, driv-

ing out the poisons from the system. It is a tried and successful method.

22 Years' Experience

Mf. White is internationally known in this line of work. He has had 22 years of success in figure mold-

ing. He will reduce any part of the body . . . neck, arms, bust, waist, abdomen, hips, thighs, calves, ankles.

Or he will build your figure to charming proportions if you are underweight.

Bu

Now, he says, can again eat and enjoy pop corn.

The simple mixture of buckthorn bark, glycerine, saline, etc. (known as Adlerika), has a most surprising DOUBLE action. First, it acts on BOTH upper and lower bowel (most medicines act on lower bowel only) and removes foul matter that often poisoned the system for months. Second, Adlerika clears all GAS and sourness from stomach and bowels, sourness from stomach and bowels, bringing INSTANT relief from stomach trouble. And in addition, Adlerika removes metabolic poisons which cause neuritis, rheumatism.

bacilli."

Dr. J. Wezver: "In my 50 years' practice, have found nothing to excel Adlerika."

J. E. Puckett: "After using Adlerika I feel better than for 20 years. Awful impurities were eliminated."

It will astonish you the great amounts of poisonous matter Adlerika brings out—matter you would never believe was in your system. In chronic constipation, gas bloating, sour stomach and sick headache, just ONE spoonful Adlerika brings wonderful relief. At leading druggists.

It is difficult to see how furniture so fine can be offered at these prices. Prominent writers have commented on the situation. About a week ago in the Chicago TRIBUNE Harper Leech, economist, pointed out that skilled laborers in Belgium earn \$1.32 per day in trades which in America pay \$12.56. Fortunately, living conditions are proportionately cheap. In a recent Saturday Evening Post article, Will Payne showed that a month's rent costs the workman but two days' wages. THE REFINEMENTS OF HARD LUCK. Chicago, Sept. 6-Saturday afternoon

about four o'clock we left Chicago on a fishing trip to the Fox river near We were hardly outside of Chicago when we blew a tire. We put on a new one and shortly after an engine knock turned out to be a burned out connecting rod bearing. We got a new connecting rod at Lyons, took the head and pan off and put it in. About ten miles from Aurora the new one went out

We tried to tighten it up, but could do nothing with it. We got to Aurora about two o'clock and finally located a garage were we got another connecting rod and an outside oil supply line which we put on and finally limped to our camp at about 4:30 Sunday a. m. ## STYLE-

Three of many models recently selected in Paris

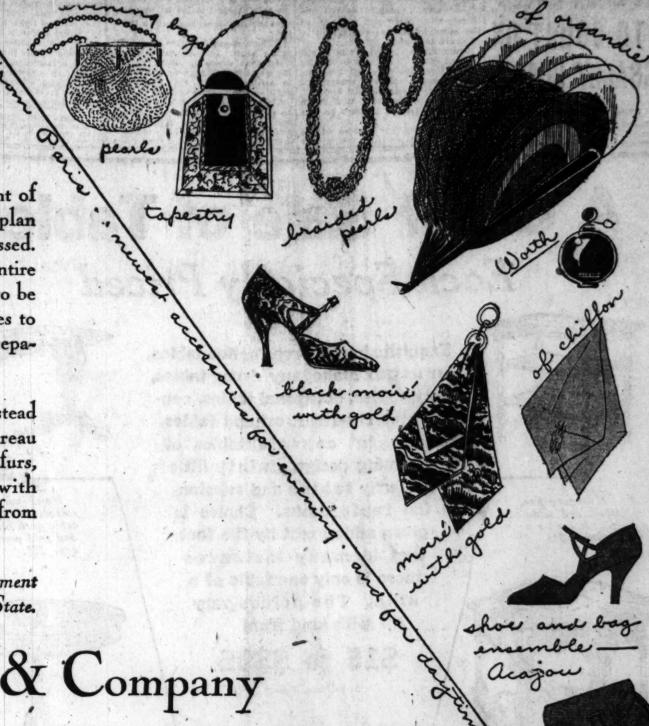

by a representative of the Fashion Bureau.

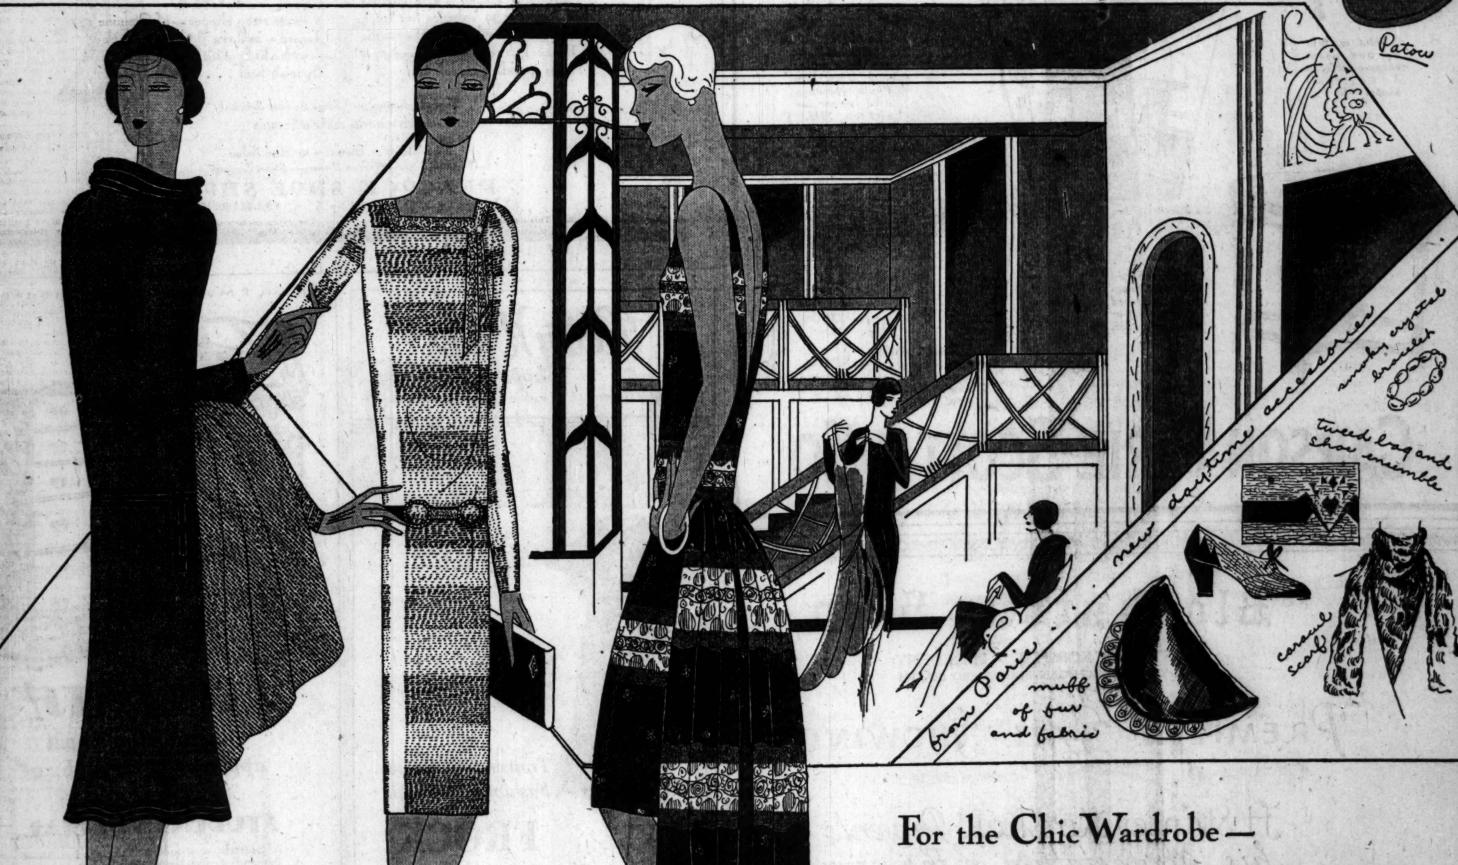

Why some women dress so much more successfully than others on a given amount of money is a question women often ask. The answer is, of course, that some women plan much more carefully than others. They make a study, an art, of being well-dressed. Instead of just buying each thing as the need occurs they definitely plan their entire wardrobe for a season and do their buying at one time. It takes time and thought, to be sure, but in the end they have a wardrobe which is complete, with all the accessories to accompany it. And it requires no more money than if they had bought each thing separately, sometimes not as much.

Our Fashion Bureau has proved very helpful to women who shop in this way. Instead of going into many sections, these women telephone or write to the Fashion Bureau for an appointment. Our fashion specialists gather together suitable frocks, wraps, furs, sports apparel, shoes, hats, gloves, and other accessories. Selections are made with Fashion Bureau's help, if desired, in one of the smart little French fitting rooms, from assortments which have been specially assembled there.

Today our Fashion Bureau opens in its new quarters . . . modern, of course, in treatment and as distinguished as the service it renders. It is located on the Sixth Floor, Middle, State.

Marshall Field & Company

Fashion Bureau selects the Schiaparelli ensemble, because it is of black and white tweed, because the hand-knit dress is over cire, and because the black caracul scarf, lower group of accessories, is cut in a new way.

Fashion Bureau selects the Leneif frock, center, because it is of jet, a new fashion, because it is all-black, and because the apparent simplicity of its silhouette is achieved by a most complex and sophisticated process.

Fashion Bureau selects the boulfant gown by Leneif, because it is of taffeta, an important fall fabric, because it is richly brocaded, and because . this treatment is indicative of the style and eleganor of the new fabrics.

## The discoveries of modern science make overheating of the home a matter of serious concern to the entire family -

How far into the winter will your family retain the benefits of the summer vacation season? Not any longer than you can prevent severe colds!

Years ago, shrewd old Benjamin Franklin noticed that the prevalence of colds seemed to begin with the heating season. He thought colds must have something to do with heating. Modern scientific men have proved that this is a fact. Dr. C.-E. A. Winslow, professor of public health in the Yale School of Medicine, discovered the exact connection in his tests for the New York City school system. Overheating by only two degrees made seventy per cent more children ill with colds!

Overheating is thus revealed as the chief source of danger. Both American and European authorities give this reason: That overheating weakens the tissues of the nose and throat, and makes them unable to stand the shock of going outdoors.

### **Automatic Heat Control** Prevents Overheating

Our unique "10 - point Demonstration" shows you the one practical way to pre-

vent overheating: To install an automatic temperature regulator on your home heating plant. It is given in your own living room in 20 minutes' time, by a specially trained Minneapolis-Honeywell representative. The ingenious demonstrating outfit is complete in itself; it requires no connec-

After you see this demonstration, you will understand why it is impossible to avoid overheating with old-fashioned hand regulation. You will see how this remarkable equipment also prevents underheating and keeps a steady, even temperature that means real comfort; how it regulates dampers and drafts automatically; how clock control rouses the fire every morning while you are still asleep and provides warm rooms to dress in.

## 19 days and 18 mights of constant driving at better than 68 miles per hour

Greatest feat of endurance in all history

HINK of the joy of owning and driving such a motor car! And yet, but for pure chance, any one of the four new Studebaker President Eights used in this test would have gone to some Studebaker dealer—and you might have bought one of them!

For these cars were picked at random, off the assembly line, by American Automobile Association officials. Their motors were sealed. They were taken to Atlantic City Speedway. And there, on

July 21, they leaped away at wide-open throttle, to crowd three years' mileage into 19 days and 18 nights!

Two roadsters, two sedans, as like as peas in a pod to those your Studebaker dealer stands ready to take you riding in! The two roadsters averaged more than 68 miles per hour-30,000 miles in 26,329 consecutive minutes. And the last thousand miles were the fastest of all-71.6 and 69.6 miles an hour average.

The sedans averaged 64.15 and 63.99 miles per hour for the 30,000 miles.

Not a drop of lubricant was added to their ball bearing shackles. And each car finished fit as a fiddle for thousands of added miles of troublefree motoring!

> Think of owning and driving such a motor car! You can-and at a One-Profit price that is the sensation of the industry. Come-drive one TODAY!

"After Many Years of Experience and Experiment with Want Advertising We Now Use The Tribune Alone"

"We own several apartment buildings that often bring us renting problems. After years of experience and experiment with them we have settled on Tribune Want Ads as the surest renting agents. They never fail and they always bring the desired results quickly. The last ad we used brought us twelve replies. Three people wanted the apartment, two agreed to bring in a deposit at once, and we were forced to say that the first one to arrive with cash could have the place. Nearly always a Tribune Want Ad will give us several choices of tenants-high class tenants that other newspapers fail to

ZIMRING & ZUCKERMAN. 53 West Jackson Boulevard.

YEARS of experiment have taught Mr. Zuckerman that a Tribune Want Ad will always do a renting job quickly. His last ad was no exception—it brought twelve prospective tenants, three of them wanting the place and a race be tween two of them to be first on hand with a deposit. "A choice of tenants is generally the case," says Mr. Zucker

Such renting efficiency can be found in no other newspaper in the world People hunting houses depend on the Tribune because they know that more "To Rent" advertising, a greater variety of offers, appears in the Tribune than can be found in any other newspaper anywhere. In fact, last year the Tribune carried 88% more "To Rent" advertising than appeared in all other Chicago newspapers combined. Tribune Want Ad supremacy in renting is unchallenged. Phone your ad to-

## ORDER FRENCH ISLIKE FASCISTI RUT FEAR NO WAR

Briancon, without a garrison, held out victoriously against a two months' siege. The past speaks for the future."

Higher up over every one of these four gateways that are still reached by drawbridges there are dovecotes where carrier pigeons, which are still used by the French army, are trained. There is a quite understandable legend among the inhabitants of Briancon garrison that when war threatens Dauphine, the pigeons cease to breed in order to prepare for the rigors of siege. I am told that in the last two years there has been a perfectly astonishing birth rate among these pigeons.

## CARSON PIRIE SCOTT & CO

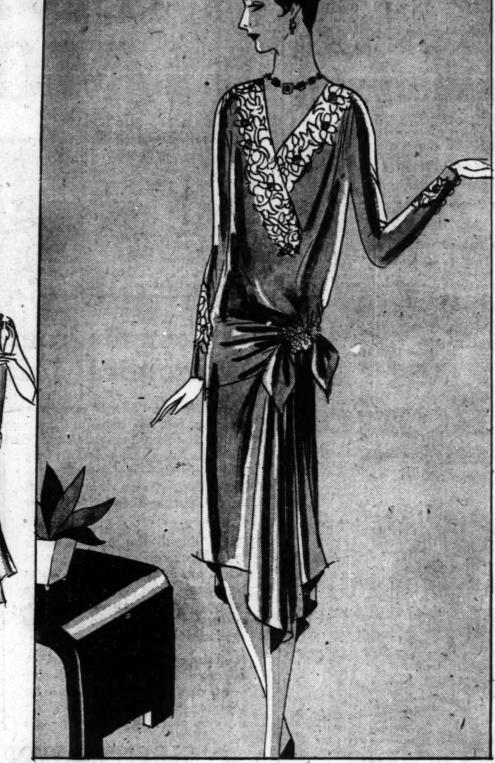

#### OPEN MESH

Silk hosiery in the smart open mesh weave confirms its fashion importance by choosing for its color range all the most alluring new fall shades. Included in this wide range are the chic darker tones of tan and brown.

It is full-fashioned of fine quality, and is priced very moderately at \$3.75 a pair.

First Floor, North, State.

#### THE HAT

Reboux, Descat and Eliane say velvet in their characteristic ways. This individuality, so important, becomes in the French Shop, this season, a cachet of definite chic.

The important berets, turbans and swathed brims, the originals or exact reproduction.

The hat sketched is by Eliane—in deep rose transparent velvet, \$55. Others in this velvet group, \$20 to \$45.

Fifth Floor, North, State.

### THE SHOES

The pathway of Autumn formality bears the footprints of narrow lasts and slender heels. Restraint of line and distinction of cut are enhanced by blending of tone and texture in carefully worked leathers. The patent leather pump is of new importance when its perfection of design carries the gleam of cut steel buckles. \$14.75.

Third Floor, South, State

## CORSETTES

For the youthful figure there is a girdlebrassiere combination of broche. It is lightly boned and the rayon top has the uplift design. Sketched left. \$5.

A 14-in. step-in girdle, lightly boned front and back, is side-laced for adjustment. \$5.

A dainty step-in gir-dle of crepe de Chine, with lustrous elastic panels is \$3.50.

Third Floor, East.

# FROCKS

Velvet casts a far-reaching radiance through the mode. So unadorned are the frocks and so gracious their effect that one is not always conscious of the technical and artistic skill evolving their design. The blending of classical and modern feeling is found in the drapings that fling the dusky softness of velvet into individual silhouettes. Bows, panels and peplums are in this spirit.

The woman's frock in the center panel has the fullness held in at the side, and the lace is rich Venise. \$110.

Sketched low at the left is a printed velvet frock for misses. Accented in bands of plain color. Many styles. Scarcely two printpatterns alike.

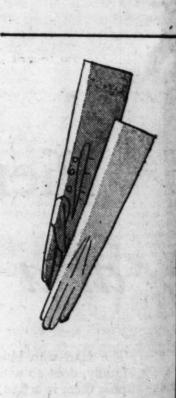

Polka dots appear on transparent velvet. Sketched top, right. In brown and beige and black and white. For women. \$85.

Showing the important new designing given to backs of frocks is the bolero back of the misses' frock. In black, brown and new blue. Sketched right below. \$65.

The evening frock is a splendor in color and line. In black, white, cerise, gold, blue and green. Sizes for misses and women. \$45.

A fine choice of velvet frocks from \$39.50 to \$225.

Fourth Floor, North, State,

Pointing the way to the subtle nuances important in Fall chic, the hand of fashion indicates gloves of suede and doeskin in the newly smart eight-button length. The suede gloves come in tans and grays, while the doeskin are in white and natural. \$3.95 pair.

First Floor, North, State.

The sheen of printed metal brocades flashes the importance of gold and silver tones in the Autumn collection. On grounds of Georgettes and chiffon voiles or the heavier weaves, these show a variety of striking designs. \$12.50 to \$16.50 yd.

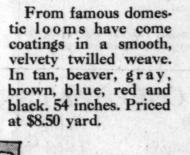

Satin crepes, adapted to the intricacy of new season fashions, are particularly important in the browns and blues. 40 in., \$3.50 and \$4.50 yd.

Second Floor, North, State.

With coats and wraps of every description assuming greater importance for all occasions of daytime wear, the choice of fabrics becomes a question of moment which is helped to a fashion-correct solution by this display of woolen coatings, both imported and domestic.

From France fine knitted wool jerseys sound the color note for Autumn coats in the sports mode. In a variety of patterns and colors. 56 inches wide. \$12.50 yard.

## Velvets

Transparent velvets, delicate, supple folds of color that envelop the formality of Autumn in a distinctive smartness.

Sheer and soft, these velvets show a range of color of unusual and remarkable beauty in all the new shades, both light and dark, whose importance is attested by their striking quality of tone. All are 39 inches wide, priced at \$10 yard.

Second Floor, North, Siate.

on his big act.

The Sox seemed in a fair way to tie the score in the second when Swanson and Redfern singled in succession with one out. But Umpire Hildebrand had one of his whimsical moments and jokingly ruled that Berg had hit

men on third and second as a result of a pass to Mostil, a hit by Reynolds and a wild pitch, but Blackerby fanned for the third out. Berg was on third and Mostil on second in the fifth, but Reynolds supplied the third out by grounding to Montague. The Sox attack flivvered again in the sixth when, with the bases full, Lyons Sox Attack Falters.

### Cuyler,s Busy Bat Turns Trick.

National league race took another up-ourd turn yesterday. The second straight defeat by the leading Cards at the hands of Pittsburgh linked with the third straight triumph of the segond place Cubs over Cincinnati cut first place to two and one-half games. The Giants remain four and one-half from the roof of the percentage colum and the Pirates stand seven games

BY IRVING VAUGHAN.

Urged on by the bat of Kiki Cuyler 46,000 partisans, Guy Bush, for two months a bull pen derelict, returned yesterday to the ranks of the winning men. And in his return he and the other Cubs walked over the Reds with a two hit 2 to 0 triumph that will go

into the books as the best battle pitched by the bronzed Mississippian in his few years of big league service. And now the Pirates. Mr. Art Nehf deuces was carried out by Cuyler.
Coming up in the third with a couple waiting and a couple dead the Pitts-burgh outcast assailed Roy Kolp with a single that drove home a run and precipitated a shower of rather for-lorn looking straw skimmers. Coming

lorn looking straw skimmers. Coming up in the sixth Kiki set the other run going with a double and Ol' Hoss Stephenson finished it with a single. Outside of this there wasn't much hitting, but nobody missed it.

died easily. Kelly completed the Rhinelanders' attack when he bounced a single past Beck with two dep in the fourth. A tap to English Allen put an end to that.

But, with due allowance for Bush's masterful control of his speed and hook, there were a few other things that started as hits and were snuffer. that started as hits and were snuffed out. One was a liner by Dressen that Beck stabbed at the start of the fourth. Another was a wicked bounder that the silent man picked up with one hand against Ford in the eighth, And he did the same on Kelly to end the struggle after Bush had caused slight uneasiness among the populace by granting a pass to open the inning.

Two men to second base, two fly balls to the outfield, two passes, two strikeouts and two hits made up the summary on Bush.

And Also Hits a Double. Beck also made somewhat of a Cin-cinnati nuisance of himself by using his bat. He was the first to face Kolp in the third inning and clouted a long ball into the left field over-flow for two bases. Bush immediate-ly sacrificed the runner to third, but when English tapped to Ford at short, Beck was nipped in a close play at the plate. But the rally didn't

die.

Maguire shoved a looping single into short left. Cuyler then clouted one so hard that it bounced over Kolp's dome and glided straight out over second base with both Ford and Crits trying to reach for it. English scored, Maguire raced to third, and Kiki promptly stole second, but poor old Hack, who believes in hitting 'em a mile or not at all, fanned.

## Dodge Brothers NEW SENIOR SIX

## A GREAT CAR MADE GREATER STILL

Bigger, faster and in every detail finer, the New Senior Six represents the most impressive value ever produced by Dodge Brothers.

Its long, sweeping lines, artistic coachwork and luxurious appointments identify it as a car of exceptional style and distinction.

Moreover, Dodge Brothers have built into the New Senior that precision and dependability of construction you invariably associate with their name.

Performance of a new and vivid character is the result. In pick-up, acceleration, ease of operation and masterly utilization of power, the New Senior surpasses even the very

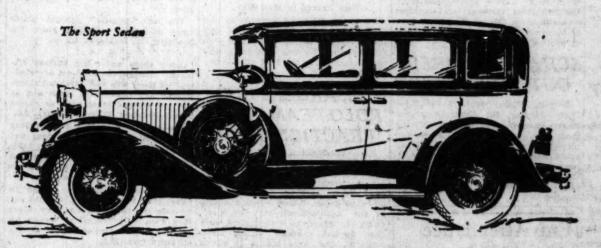

high standards set by its bellliant predecesson

Beautifully appointed inte riors, longer bodies, spacious and deeply tufted seats, strike ing color effects and complete fine car equipment, further emphasize the regal luxury of New Senior design.

We will be proud to show you this beautiful car, and when its remarkable performance, beauty and comfort are brought home to you by a demonstration on the highway, you will want it for your own.

## CHICAGO CLAIMS MORE ATTENTION FROM RAILWAYS

BY HARPER LEECH.

industry moves toward a spot near Chicago and the center of population has been marching along the same route, new industries and new traffic agencies have grown up in accord with the modern orientation of America. In highways and in motor equipment the American people have invested more than the entire cost of the rall system since 1900.

While the rail plant has grown in the same period and still is growing, it yet is very largely influenced by the geography of a by gone era. Its management is under the supervision of a government bureau located in an artificial non-commercial city located on minor lines of railroad, practically in a geographical and historical backwater of America.

Pail to Reflect Changes.

The great investment banking houses which have such a great stake in raliroads mostly are in New York and the great majority of their directors live around four eastern seaports, New York, Boston, Baltimore and Philadelphia. Time was when those seaboard cities were foci of American civilization, which spread out from them over the continent.

That time is no more.

Chicago, of course, is the heart of the American railway system. The extent to which the present railroad set up ignores this is a measure of the extent to which it is out of tolar with the times.

Chicago financiers are beginning to call attention to the fact that railway bank balances are carried in New York, out of all proportion to the origination of freight traffic. Chicago the place where railroad men work and live, must get the news of what railroads are going to do from bankers in New York.

The four trunk lines which connect the two cities by continuous rails and operation under one management, offer in their respective terminals, plenty of evidence of the influence of the eastern leverage upon the management of the lines.

Few Chicagoans who use the Grand Central terminal or the Pennsylvania station in New York do more than hurry through them. It is a revealing thing to spend an hour or so in each—study the gigardic engineering conceptions involved—imagine the great tunnel system feeding each and try to guess what a tremendous effect those vast expenditures have had in promoting the growth of the cities on the eastern end of these trunk lines and how much that fast electric transit under the city traffic, under and over the water way traffic of the harbor, has had to do with anchoring population and business there. Chicago's terminals are impressive. Our vast and grimy yards full of revenue must have a kick in the earnings state-

imagination is cumulative. Its first effect on the popular mind is bewildering. Presently there is a dash of some thing like superstition. Since there seems to be no possible limit to American power and prosperity the idea seizes on the speculative public that there can be no limit to the rise on the stock exchange which reflects it. tock exchange which reflects it.

Effect of Public's Vision. Then as soon as the public's own un-restrained speculation has created such a market, the market itself is suddenly conceived of as an entity by itself, dis-sociated with anything else in the pic-ture. The outside public thereupon re-jects the idea that the market's present or future course is dependent on any developments outside the stock exchange. Serious people begin to discuss the mar-ket as an independent phenomenon, sub-ject to no known laws, principles or wrecedent.

## \$20,000,000 North American Edison Company

51/2% Debentures, Series B

To be dated August 15, 1928 To mature August 15, 1963 Interest payable February 15 and August 15, without deduction for normal Federal income tax not exceeding 2% per annum. Principal and interest payable in New York in United States gold coin. Coupon debentures of \$1,000 denomination, registerable as to principal only. Redeemable as a whole, or in part by lot, on the fifteenth day of any month on 30 days' notice, (1) to and including August 15, 1930, at 104 and interest, with successive reductions in the redemption price of 1/2 of 1/6 during each two-year period thereafter to and including August 15, 1960, and thereafter until maturity at 100 and interest, and (2) under certain conditions upon sale of certain assets, at 100 and interest. The indenture is to contain provision for refund of Pennsylvania personal property tax not exceeding four mills per annum. Central Union Trust Company of New York, Trustee.

The company has agreed to make application in due course to list the Series B debentures on the New York Stock Exchange.

The following information has been summarized by Mr. Edwin Gruhl, President of North American Edison Company, from his letter dated September 7, 1928, copies of which may be obtained upon request, and is subject to the more complete information contained therein:

North American Edison Company, organized under the laws of Delaware in March, 1922, as a subsidiary of The North American Company, controls through stock ownership important public utility operating companies, including The Cleveland Electric Illuminating Company, Union Electric Light and Power Company (St. Louis), Mississippi River Power Company, The Milwaukee Electric Railway and Light Company, Wisconsin Electric Power Company, Wisconsin Gas & Electric Company, and Wisconsin Michigan Power Company. The earnings of the operating subsidiaries of the company are derived principally from electric light and power business, more than 78% of gross earnings and more than 87% of net income from operation during the twelve months ended June 30, 1928, having come from that source.

Consolidated gross earnings of subsidiaries of North American Edison Company, during the period of twelve months ended June 30, 1928, represented more than 55% of the consolidated gross earnings of all subsidiaries of The North American Company during that period.

of The North American Company during that period.

CAPITALIZATION
Upon completion of this financing, the capitalization of the company (subject to further conversions of Series A debentures into preferred stock after September 5, 1928), will be as follows:

PURPOSE OF ISSUE

Proceeds of the sale of this issue of Series B debentures will be used for the payment of unfunded debt of the company and for other corporate purposes. Consolidated earnings of the company and its subsidiaries for the three years ended December 31, 1927, and the twelve months ended June 30, 1928, before deducting interest charges of the company, were as follows:

\$83,941,982 46,422,168 \$23,076,262 8,770,941

The above balance of \$15,339,250 for the twelve months ended June 30, 1928, is more than 7½ times the annual interest requirement of \$2,017,050 on the \$38,341,000 principal amount of debentures of the company to be outstanding, as shown above, upon completion of this financing.

We offer those debenburs for delivery if, when and ar issued and accepted by us, subject to the approval of legal proceedings by counsel. It is expected that delivery will be made on or about September 20, 1928, in the form of temporary debentures, or interim receipts of Dillon, Read of Co.

## FOR PRESIDENTIAL RHYME-LINES!

## Open to Everyone!

AN you suggest a last line for the Presidential Rhyme printed above? Try it! It's easy! Just write a line that will rhyme with the first two lines.

Note the sample at the right. Can you write a better last line?

Every week-day for 42 consecutive days, the Chicago Tribune will print a rhyme about the Presidential election, leaving the last line blank. You are invited to fill in the last line.

The Chicago Tribune will pay \$5,000.00 in Cash Prizes to the persons who send in the best last lines to these 42 rhymes.

This offer is open to everyone everywhere—men, women, boys and girls—except employes of the Chicago Tribune and their families.

You pay nothing. Just try your skill. Try to be clever and original. Rhyme-Lines are to be submitted only in complete sets. Hold all rhymes until you have the full set of 42. Then mail them to "Rhyme-Lines," the Chicago Tribune, Post Office Box 1539, Chicago, Illinois.

All entries must be in by midnight 15 days after the last Presidential Rhyme is printed.

Rhyme-Lines must be sent by First Class Mail, postage prepaid. Entries with insufficient postage will be returned by the Post Office Department.

You need not purchase the Chicago Tribune to compete. You may write your rhyme-lines on a separate sheet of paper. The Chicago Tribune may be examined at any of its Offices or at Public Libraries free of charge.

The judges will be a committee appointed by the Chicago Tribune. Their decision will be final. In case of ties a duplicate award will be paid to each tying contestant.

Here is an opportunity to win a large cash award! It's great fun, too! 288 Big Cash Prizes will be paid for best answers.

Start with Rhyme No. 1 printed above. Can you write a clever last line for it?

Rhyme No. 2 will be printed in tomorrow's Chicago Daily Tribune.

Whithy dies suddenly and Elizabeth learns consternation that her aunt had frittered away the money left her by her husband, had also disposed of some of Stephen's inheritance. Atraid to face Stephen after revelation, Elizabeth decides to go to Mark Lennox and ask him to get her a job stage. Stephen finds her with Mark and, although his business has falled, to help her. She refuses his help and advice, and takes a part in Mark's seems to help her. She refuses his help and advice, and takes a part in Mark's we play. On the opening night she rets stage fright and runs off, leaving an undersolve to take over her part. Miss Smiley, who happens to be in London visiting her soln Mrs. White, sees Elizabeth on the street and takes her to Mrs. White's house, the lands a post as companion to an old lady in the country. Julian Vesington, the did lady's grandnephew, makes all the arrangements with Elizabeth.

Suphen arranges with his cousin, William Whitby, to take over the management of the latter's business.

Missbeth grows fond of Mrs. Vesington, who showers attention upon her young capation, but the girl misses youthful companionship and scents a mystery about the house. The atmosphere of the house finally gets on her nerves and she grows mittee and morbid. She wants to get away, but Mrs. Vesington will not release her. She malizes she is being held a prisoner. Her letters to Stephen are unanswered. She stally manages to escape and goes straight to Stephen.

By Mae Tinée.

Good morning! FBO has just put out two creditable program offerings in the film you are to learn about this morning. [Always] taking for granted, you see, that you

o read this column.]
"Danger Street" sings of gangs and gang wars. It is full of punch, has some unusual and striking situa-tions and is peopled with a cast that does most certainly know its business. The men are all excellent in character, and the heroine—impersonated by Martha Sleeper—has a gravely winning personality and the same sweet look out of her eyes that drew you so to Marguerite Snow. [No poetry intended.]

Warner Baxter opens the picture as a distillusioned young man who has just been deserted at the altar. Strolling nit-wittedly through the bad lands in quest of death—why doesn't he kill stances in pretty nearly all cases. cowardly! [We always try to answer quest of death, he finds chances for are contained in the charming person

Sleeper].
Ralph Ince, a bounding he-man him self, whom you often see acting in the pictures, has directed "Danger Street" surely and forcefully, taking care that photography, sets. And so, says I, this "Danger Street"

Is sure to your approval meet. This Is Good Show, It Seems, Except Mr. Green "STOCKS AND BLONDES."

Despite the fact that this picture's Mr. Green, as portrayed by Richard "Skeets" Gallagher, is likely to give you a pain in the neck and a woozy feeling in the stomach and an itch in your kicking foot, he is by no means able to spoil the show for you.
"Stocks and Blondes" leaving this
smartaleck out of consideration—and, who knows, you may like him!-is a neatly turned comedy drama, mighty well directed and boasting Gertrude Astor as a night club hostess, Jacqueline Logan as her dancing sister and that delightful Albert Conti as the stock broker who loves her, Goldie They give sure fire portrayals that would take the bad taste out of any picture's mouth.

The action prances from stock market to night club. Little Sister's beau, Mr. Green, works as runner in Big Sister's admirer's office. He is fired for a lot of reasons, any one of which would have been aufficient reason to erase him from the scenery, and Little Sister sets out to make the big boss see he can't do without her honey boy. With interesting results. See pix for detailed account of same. This is light, bright enterta well worth your tinkling change at the box office window.

## **Echoes Plea of** Taggers Today

Here Is List to Prove That Is True.

Have you a nickel, a dime, or a dollar to spare today for the Chicago Federated Charities? Both the nickels and the dimes will be acceptable, of course. But the dollars are needed the worst. And if they cannot be spared, quarters and half dollars will be gladly received by the 3,000 women and girls who will dispense the heart shaped tags for the charities. Last year, according to Miss

Ellen Babcock, president, proceeds of the annual tag day hovered near the Evanston, clerk—I see no very good reason why a woman should get a little the better of anything. If a woman offends the law of all races and religions are furnished.

"No Nice Girls," He Says, "Any More?" Well, How About Men? BY DORIS BLAKE,

"You keep talking about the mice girls-but, tell me, where is a man going to find them? You evidently aren't well posted on the modern girl or else intentionally sidestep the issue. "I'm 28, and want to marry and esablish a home. Honestly, I don't new a single girl I feel I could trust seunds pretty bad, doesn't it?

"I don't ask for great beauty or scomplishment. I long ago gave up the idea of ever finding the combination of virtue and beauty. Just fair physical charm is all I ask now.

"I make good money; have a good position, and find no trouble in traviling in recognized desirable society. For the benefit of their parents and the public most girls are highly respectable (in public), but when you get hem off alone they require very little and usually no urging to step out. In books you read of girls holding boor dearer than life itself. But the modern gril doesn't hold it above the decomfort of a walk home or the fear d being left alone.

"Girls that I knew before they

narried beg me to take them out on the q. t. Women I meet call up the ort day to arrage a date. The only the seems to be in being found out.
When I was a boy growing up I was when I was a boy growing up I was led to believe there were as many good girls as there were others. And I think there were—then. Now I'm sumped to even find one. They all make, drink, pet, and tell stories without reserve. Tell me, how can a wee have faith in them? man have faith in them?

Perhaps we could find the answer by reversing the question. Where is the nice Toin, 28, eager to marry, well strated financially, who, alone with a gri, doesn't try to get her to "step sut." as you call it?

Where is the nice Tom who does not get on such terms of intimacy

perested in you. That's all.

WANTED-MALE HELP.

Salesmen, Solicitors, Etc.

Waiting lists will soon be established for applicants seeking positions as saiesmen with a large international organization. These lists already exist in many of the 43 countries in which we operate over 500 branch offices. We are just commencing operations in the United States and our expansion program calls for about 40 salesmen in the Illinois territory.

These men will be assured of splendid incomes and a remarkable future with a financially strong old company. Inasmuch as we are the only ones in our particular field we cannot get experienced men and the qualifications are loyalty, intelligence and aggressiveness.

Men who apply for personal inter-tew from 10 to 12 a. m. Thursday ill be able to start work immediate-if they are acceptable. Call

## Yanks Regain Lead by Defeating Athletics in Two Games—Lombardo Aid Dies as Star Wearer Is Slain

[P. & A. Photo: Transmitted by Telephone.]

PART OF THE CROWD OF 85,265 THAT SAW NEW YORK TEAM REGAIN AMERICAN LEAGUE LEAD. The attendance at the two games which the Yanks captured by scores of 5 to 0 and 7 to 3 was greater by 20,000 than any which ever witnessed a baseball game, and consequently more than ever attended a world's series contest.
